

Company Profile

Driving Innovation and Inclusion
In Mechanized Agriculture

Pioneering sustainable solutions for women in mechanised agriculture across West Africa.

Uplifting Women, One Machine at a Time

WIMA is Nigeria's pioneering and sole Tractor & Equipment Association entirely owned and operated by women. We are dedicated to revolutionizing West Africa agriculture by empowering women through mechanized farming.

Founded in 2019, WIMA provides accessible and affordable mechanisation services nationwide, aiming to enhance the livelihoods of women farmers.

OUR VISION

WIMA envisions a West Africa where women lead the transformation of agriculture through innovative mechanised farming to create a prosperous and sustainable future for all.

OUR MISSION

Propelling peasant farming into mechanized agro hubs. We are a team inspired to empower women in West Africa to lead the agricultural revolution through accessible and women-owned mechanised farming services. We enhance farming efficiency, increase productivity, and uplift rural communities by providing training, support, and access to technology through which we foster sustainable agricultural practices and driving economic prosperity across West Africa.

WIMA Core Objectives

- 1 Empower Women in Agriculture:** Enhance women's participation in mechanized farming through training, access to machinery, and technical support.
- 2 Promote Sustainable & Modern Farming Practices:** Advocate for climate-smart agriculture and sustainable mechanization techniques to increase productivity while preserving the environment.
- 3 Increase Access to Agricultural Mechanization Services:** Provide affordable and efficient tractor & equipment services to smallholder farmers, ensuring better yields and profitability.
- 4 Capacity Building & Skill Development:** Offer training programs, mentorship, and workshops to equip women with the knowledge and expertise needed to excel in mechanized agriculture.
- 5 Facilitate Access to Finance & Resources -** Work with financial institutions and stakeholders to create funding opportunities for women in agriculture, including grants, loans, and equipment leasing options.

6 **Advocate for Gender Inclusion in Agribusiness:**

Engage with policymakers and stakeholders to create an enabling environment that supports and amplifies women's voices in agricultural policy and decision-making.

7 **Strengthen Rural Livelihoods & Economic Growth:**

Ensure that mechanization translates to higher incomes, better job opportunities, and improved living standards for women farmers and their communities.

8 **Create a Strong Network of Women in**

Mechanization: Build a collaborative community of women farmers, agribusiness professionals, and industry stakeholders to share knowledge, resources, and opportunities.

Core Values

The Values that drive us and the drive we value

Our Services

Affordable, Efficient, and Farmer-Friendly Mechanization Services with WIMA

At WIMA, customer satisfaction is our top priority—which is why we've made our tractor hiring services affordable, convenient, and tailored to meet the needs of every farmer. We believe in putting farmers first, helping you maximize your yields while reducing costs and labor time.

Our Cost-Effective Tractor Hiring Services

1. WIMA – E-Vehicle Service

Transport of Goods – Negotiated based on location and duration

2. Land Preparation & Soil Tillage

- **Ploughing**

30HP Three-Wheel Tractor
Covers 2 hectares per day
65HP Four-Wheel Tractor
Covers 4 hectares per day
Rate per hectare: **N80,000**

- **Ridging**

Covers 6 hectares per day
Rate per hectare: **N45,000**

- **Harvesting**

Covers 4 hectares per day
Rate per hectare:
N190,000

- **Harrowing + Ridging Combo**

Rate per hectare:
N60,000

- **Harrowing**

Covers 6 hectares per day
Rate per hectare:
N60,000

3. **Other services provided are on farm or at hub services:** Solar powered irrigation services, threshing, drying, and knapsack spraying with a negotiable price based on location.

Why Choose WIMA?

At Women in Mechanized Agriculture Association of West Africa (WIMA), we are redefining the agricultural landscape by empowering women to lead in mechanized farming.

Our innovative approach, industry expertise, and commitment to sustainability set us apart. Here's why you should choose WIMA:

Women-Owned, Women-Led

We are the first women-led mechanization service provider dedicated to equipping female farmers with modern agricultural tools and expertise. Our programs uplift women, ensuring they own, manage, and benefit from mechanized farming.

Sustainable & Efficient Farming

WIMA promotes environmentally friendly mechanization that reduces manual labor, increases farm yields, and ensures long-term sustainability. By utilizing modern technology, we help farmers maximize productivity with minimal effort.

Bridging the Mechanization Gap

Access to tractors and mechanized tools has been a barrier for many rural farmers, especially women. WIMA provides affordable equipment rentals, training, and support services to empower smallholder farmers.

Proven Track Record of Impact

- 50% increase in farm productivity for women-led farms.
- Hundreds of rural farms served, improving yields and profitability.
- Growing network of women in agriculture, fostering economic empowerment.

Partnerships & Global Support

We collaborate with local and international organizations, government agencies, and private sector partners to drive meaningful change. When you choose WIMA, you join a global movement advancing women in agriculture.

WIMA Partnership Opportunities

We seek to explore a prtnerships on women-led mechanisation hubs (solar power, solar threshers, post-harvest & digital extension) serving fragile conflict affected states in Nigeria to scale 84 hubs over 24 months with clear SDG & adaptation KPIs.

- * Grants to de-risk training & gender components.
- * Debt/guarantees for traders/solar/cold-chain CAPEX.
- * Climax windows for adaptation-tagged hub roll-out in fragile LGAs.

Our Team

- **Hadiza Abubakar Umar** - Project Team Lead
- **Zainab Aminu** - Project Manager - Gender Democracy
- **Bilkisu Sani Yero** - Project Manager (M & E)
- **Jessica Gomina** - Finance Office
- **Takwi Leonard** - Human Resources Manager
- **Rufai Gummi** - Field/Operations Manager

Details of Board of Trustees

- **Dr. Aisha Waziri (PhD)** - Board of Trustees, Chair
- **Aisha Yakubu Bako** - Member
- **Heather Ronke Akanni** - Member
- **Hayet Lawal Aliyu** - Member
- **Rose Kandi Alson** - Member
- **Aisha Sutura Bello** - Member

Why choose WIMA?

Farming should be profitable, and WIMA is here to make that happen! Consider this:

Using WIMA's Mechanization Services:

A 30HP tractor can plough 2 hectares per day at just N80,000 per hectare, meaning N160,000 for 2 hectares.

It's fast, efficient, and saves time, allowing you to plant earlier and increase your yield.

Using Manual Labour:

It would take at least 20 workers to plough 2 hectares (equivalent to two football fields) over several days.

At an average daily wage of N7,000 per worker, you'd spend around N140,000 per day—and the job could take 5-7 days, pushing total costs beyond N700,000.

By choosing WIMA, you save up to 75% compared to manual labor while getting the job done faster and more efficiently.

We're transforming agriculture by providing cost-effective, high-performance mechanization that makes farming more productive, time-saving, and profitable.

- Faster land preparation = More planting cycles = Higher profits!
- Lower costs than manual labor = More savings for you!
- Reliable and efficient service = Less stress, more yield!

Don't let manual labour slow you down!
Choose WIMA and farm smarter, not harder.

Be Part of the Movement!

Join WIMA today and contribute to a stronger, more sustainable agricultural future powered by women.
